The foundation of the 5Star Rita family was the ingenious acquisition of the Dan Strong, VAR Discovery x 1209 embryos in the 2016 NWFFS, which set an unbeaten record selling price of \$4800 per embryo. The resulting female, 5Star Rita 1608 and her maternal sister 5Star Rita 163A now anchor an aggressive ET program which challenges all former EPD and \$value thresholds. The grandam, DSA Ingenuity S730 1209, was the \$35,000 1/2 interest top selling bred cow of the 2017 44 Farms sale where she stood as the #12 \$B proven dam in the breed. Her daughter in the same sale commanded a \$55,000 bid from Rutherford Ranches, TX; while a granddaughter sold at \$35,000 to Nobmann Cattle, CA. The now-deceased DSA New Direction 1022, was the \$75,000 top selling donor at the 2016 Dan Strong Angus Sale selling to Reverse Rocking R Ranch where a daughter, DSA TEN X 1022 1433 sold to High Roller Angus for \$176,000 as the top bred heifer in the same event. A heifer pregnancy from "1022" nearly topped the 2017 NWFFS pregnancy division at \$20,000, while embryos by "Ten X" and Baldrige Xpand x743 were the high selling embryos at \$3300 and \$2700. The latter embryos resulting in a heifer pregnancy selling at the inaugural Silverado Farms Sale as featured Lot 1 and high selling lot at \$11,500. 5Star Rita 1608 and 5Star Rita 163A are among a mere handful of heifers in the breed with their level of across-the-board carcass EPDs and \$B value. The matings on this page further magnify the traits of economic value.
